Products: 8200 Monochromatic Blue, MVOLT, Horizontal Flood, Yoke Mount | Hyline501 Monochromatic Blue, 4FT, Wall Wash, Adjustable Mount Side Hinge, 0-10V

High Visual Impact

The Hyline501 linear accent floodlight offers superior optical performance, efficacy, and design flexibility in the smallest of profiles. The surface mount luminaire provides a range of optics and color temperatures from 2700K to 5000K to graze and wash architectural applications for an evolutionary experience.

Durable Solution

Hyline501 is a surface-mount luminaire designed to graze or wash architectural features or facades with theatrical lighting. It is constructed in a one-piece extruded aluminum housing, rigid construction, and an updated form, ensuring no water intrusion, high quality, longevity and high performance.

Quad Tech RGBW

Designed for impressive near field saturation to beautifully graze or wash architectural features and facades without striations or loss of quality.

RGBW

Create show-stopping architectural elements or subtle ambiance with the right amount of light.

Static White

Make a dramatic architectural effect or highlight artwork with punchy white lighting or a smooth glow.

Monochromatic Color

Turn each design into a success with pure, high-intensity monochromatic color that packs a punch.

Tunable White

Easily tune your whites throughout the day with adjustable color temperature and intensity - enhancing architecture and elevating aesthetics.

Warm Dim

Bring the right mood to your environment and change landscapes when needed with Warm Dim technology.

Hyline501 Static White, Continuous Run, 4000K, 300 lumens per foot

Hyline501 Monochromatic Blue, 3500K, Wall Wash, 300 lumens per foot
Hyline501 Static White, Direct View Lens, 3500K 300 lumens per foot

Color with Purpose

Shape your world with new possibilities, color with purpose, and let your lighting design come to life. Hyline501 Quad Tech RGBW offers high-performance color mixing with no color separation. Its tighter LED packaging allows better beam control.

Superior Color-Changing Technology

Color precision with Hyline501 Quad Tech RGBW; make it close and personal with high-performance color mixing.

Small form factor

Small form factor combined with a high lumen output of up to 1100 lm/ft for accent and ambient lighting.

Outstanding color performance

Quad Tech RGBW combined with tighter LED packaging provides optimal color mixing under the optic and allows for better beam control.

For demanding environments

IP66 rated for demanding environments and protection from water intrusion.

High performance optics

The range of optics includes nine different diffusers from 9° x 9°, 10° x 60°, 15° x 30°, 30° x 60°, 40° x 60°, 60° x 60° and Wall Wash (Asymmetric) for application flexibility.

Numerous accessories

2ft and 4ft lengths are available with the Hyline501 Quad Tech RGBW. Custom and RAL finishes also available.

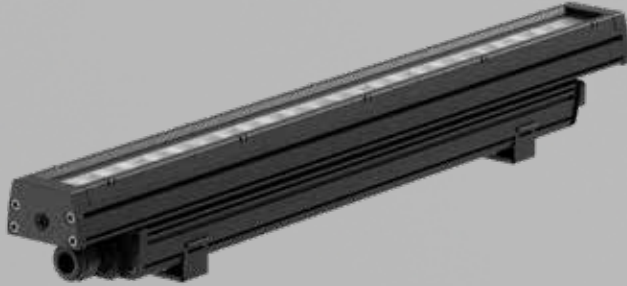

Hyline501 Quad Tech RGBW, 3500K, 300 lumens per foot

Mounting Accessories

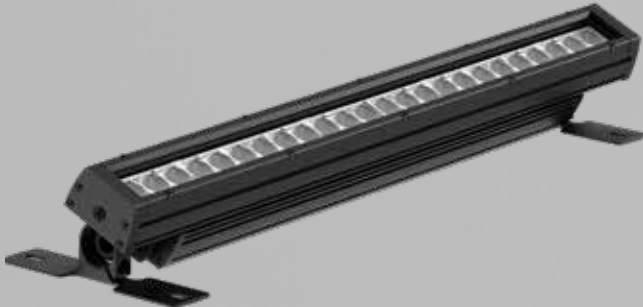

Select from a wide selection of mounting accessories for surface and ground-mounted lighting applications. This modern, slim profile fixture comes in standard 2ft, 3ft, and 4ft lengths or joined for continuous runs of any length.

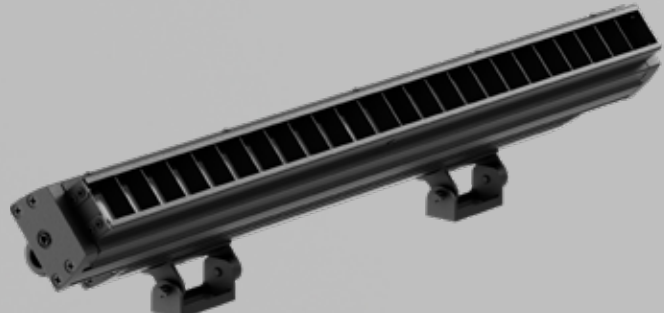

Glare Visor (HVSR)

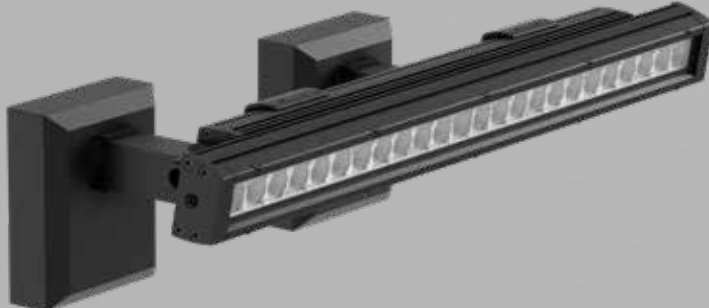

Fixed Mount (H500FMC)

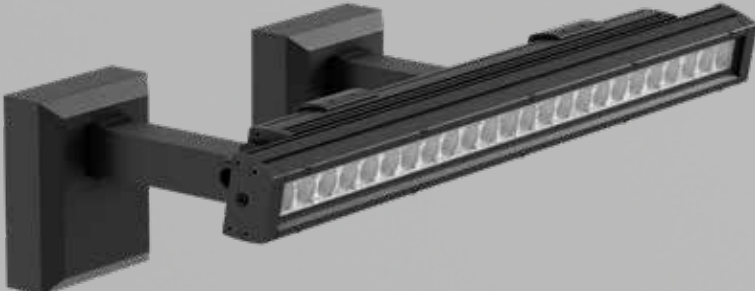

Adjustable Mount Center Axis (J500ADJC1)

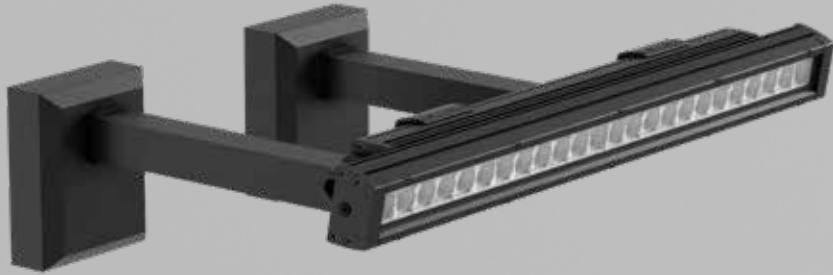

Adjustable Mount Side Hinge with Baffle (H500ADJH2 with HBFL)

Cantilever Wall Mount (CWM6)

Cantilever Wall Mount (CWM12)

Cantilever Wall Mount (CWM18)

Please refer to specific spec sheets as options vary according to model.

Explore. Create. Illuminate.

Its slim 64 mm profile makes it easy to integrate into architectural facades; an innovative design update improves sealing properties from water intrusion throughout its life.
